Our training centre has a range of fire fighting and offshore emergency response training programmes for delegates to gain hands on experience in dealing with emergency situations. Courses are conducted with classroom lectures and realistic practical exercises on our purpose-built mock up installation that provides live fire fighting scenarios in controlled environments.

Advanced Fire Fighting [DMA / DMRI Approved]

This training is for seagoing personnel designated to take charge and control of fire fighting operations in an emergency. The emphasis of the training is in organisation, tactics and command. The course covers requirements specified by the IMO for STCW as amended 2010.

Delegates will learn and demonstrate on how to take command, organise and train fire parties and control fire fighting operations. Delegates will acquire knowledge of fire prevention and ability to inspect and service fire detection and extinguishing systems. Delegates will also be able to investigate and report on incidents involving fire.

Duration
2 Days (DMA)
4 Days (DMRI)

Validity
5 Years

Damage Control Teams [DCT]

This training is for personnel designated as Damage Control Team Member on offshore installations.

Delegates will learn and demonstrate to a level of competence on how to operate fire fighting and fire protection equipment and how to deal with various fire situations onboard installations. Emphasis will be on working as a team under the control of a fire team leader.

Duration
2 / 3 Days

Validity
3 Years

Fire Watcher

This training is for fire watcher on offshore installations, industrial sector, shipyards, construction yards or petrochemical industry.

Delegates will learn the duties and responsibilities of a fire watchman and gain the fire safety, prevention and effective fire hazard control skills.

Duration
1 Day

Validity
3 Years

Fire Prevention & Fire Fighting [DMA / DMRI Approved]

This training is for seagoing personnel in any capacity as part of the mandatory STCW requirements as amended in 2010.

Delegates will learn and demonstrate on how to take appropriate measures for the safety of personnel and of the ship, to use fire appliances correctly and knowledge of fire prevention.

Duration
3 Days (DMA)
2 Days (DMRI)

Validity
5 Years

Basic Fire Fighting

In this training, delegates will gain a basic level of understanding and awareness of fire prevention and fire fighting and practical use of fire fighting equipment

Duration
1 Day

Validity
3 Years

**Offshore Emergency Response
Team Leader [OERTL]
[OPITO / TPTI Approved]**

The course is designed for personnel designated as Offshore Emergency Response Team Leaders on offshore installations. Delegates will learn and demonstrate on how to operate fire fighting and fire protection equipment and how to deal with various fire situations onboard installations.

Duration
3 Days

Validity
2 Years

**Refresher Course
