

National guidelines - Netherlands

In order to comply with national requirements, we are implementing the following further precautionary measures: **Facilities in the Netherlands are open for business critical trainings**

Travel	<p>For international travel follow guidelines ministry foreign affairs, concerning risk assessment and advice each country/region.</p> <p>For national travel no restrictions set.</p>
Quarantine	<p>As a result of an increase of COVID infections, the Dutch government has taken more stringent measures. This means that in most public places, including public transport, a mouth mask is mandatory. In an increasing number of places, proof is requested through a COVID check app. At the training locations in Amsterdam and Rotterdam, it is compulsory to wear a mouth mask when walking through the building.</p>
Social distancing	<p>National guidelines: 1.5m general guideline</p>
Food hygiene	<p>Standard hygiene protocol is in place. Cleaning work in the buildings has been intensified.</p>
Class sizes	<p>Max. 12 - 16 delegates for open courses. Fire Academy groups for outside training have no limits. (facilities are limiting factor.)</p>
Restrictions on courses/ methodology/ equipment	<p>Mouthmasks are made available for every visitor and employer. Up on request a self test can be facilitated</p> <p>Strict social distance of 1.5m</p>
Cleaning of equipment	<p>Umonium 38 - disinfectant: see annex umonium Used to disinfect all breathing equipment and other relevant PPE's</p> <p>External cleaning company will also use appropriate product for general cleaning.</p>
