National guidelines – United States of America (Louisiana)

In order to comply with national requirements, we are implementing the following further precautionary measures:

Travel	No employees or delegates must enter RelyOn Nutec-Houma or Lafayette facilities for 14 days upon return who currently have/ previously had any Corona-like symptoms within the last 48 hours or the individual is aware that they have had any contact with a person infected or suspected to be infected with Coronavirus.
Quarantine	If any of our employees'/ delegates co-habitants, such as spouse and children, are placed in quarantine, who currently have/ previously had any Corona-like symptoms within the last 48 hours or the individual is aware that they have had any contact with a person infected, or suspected to be infected with Coronavirus, the relevant employee/ delegate must also be quarantined from RelyOn Nutec locations for the same period or a minimum of 10 days provided there have been no symptoms during the time period. Relevant personnel may return sooner if they receive a negative result and no symptoms were reported during daily monitoring.
Social distancing	We are complying with the state guidance on keeping social distance to the extent possible between employees and public. Masks are recommended to be worn if more than a 6-foot distance is maintained and required if less than 6-foot distance occurs.
Food hygiene	Served as prepared at a restaurant and brought in separate containers to the facilities.
Class sizes	Classes are at maximum occupancy per classroom. Masks are recommended to be worn if more than a 6-foot distance is maintained and required if less than 6-foot distance occurs. Alternatively, we may provide theoretical teaching through webinars for selected courses.
Restrictions on courses/ methodology/ equipment	First Aid practical courses are met by video demonstration and chest compressions. No mouth to mouth will be conducted and the mannequin used shall be sanitized between each use. In-water exercises that require close contact have been modified to maintain social distancing to the extent possible while achieving learning outcomes.
Cleaning of equipment	We are complying with the national guidelines and the guidelines from the manufacture to ensure all equipment are properly sanitized and free of pathogens.
Other national specific guidelines	We are complying with the national guidance on maintaining social distance and the state's reopening to maximum occupancy. Sanitization and hand cleaning products are readily available to both employees and delegates. Masks can be worn during theoretical and any non in-water practical, should the employee/ delegate choose to do so, provided it does not interfere with their ability to perform demonstrations/ occupational tasks.
Potential Exposure	If an individual who has been to our facilities is symptomatic, believes they may have come in contact with an infected person, or test positive to have COVID-19, the Director will coordinate with Facility Managers and Sales department to notify all personnel of the potential exposure incident. This includes anyone who may have been exposed up to 48 hours prior to the individual showing any signs or symptoms.
