

Press Release for December 17, 2019

RelyOn Nutec acquires the safety training activities of Safety Management Systems LLC

The RelyOn Nutec Group is delighted to announce the acquisition of Safety Management Systems (SMS) safety training activities.

As part of the deal, which is expected to close by December 31, 2019, the two are forming a strategic alliance and RelyOn Nutec is moving all of its existing Lafayette, LA operations to a new state of the art facility at 2916 N. University Ave, Lafayette, LA beginning January 2, 2020.

SMS is one of the largest providers of safety, medical, security and health and wellness services in the United States and will continue to offer these services.

Scott Domingue - President of SMS says *"Safety and skills training remain extremely important to us and our clients, however, we have come to the conclusion it's better to focus on our core services and let the safety training activities become part of a professional international training organization"*.

Torben Harring – Group CEO of RelyOn Nutec says *"SMS has built a state of the art training campus, which fits very well in our portfolio of 34 training facilities across the world. At the same time we share SMS' strong values and culture and I'm looking very much forward to bringing our businesses closer"*.

Jenni Lewis – Managing Director of RelyOn Nutec GoM says *"The acquisition of the safety training business from SMS comes as we have just finished a significant upgrade of our Campus in Houston, Texas and are undertaking a complete rebuild and expansion of our facility in Houma, Louisiana"*.

"RelyOn Nutec is the longest-serving and largest provider of safety and skills training to the Gulf Coast and shortly, we will have five top facilities in the region. In 2020 we look forward to expanding our services to include simulator training, drilling training services, digital learning solutions and competence software services", she continues.

About RelyOn Nutec

RelyOn Nutec is the world leader in safety, skills, drilling, emergency response and crisis management training delivered to the oil & gas, maritime, wind and other high risk industries from 34 training centers in 21 countries across the world.
