

## **RelyOn Nutec expands operations into Poland**

RelyOn Nutec (RelyOn), a global leader in safety and skills training for the energy transition, is pleased to announce its expansion into Poland through an acquisition of GoRopes, a highly regarded training center, well located in Gdansk, specializing in Global Wind Organization (GWO) approved courses and rope access training as well as PPE sales, rental and inspection. This partnership underlines RelyOn's commitment to ensuring its presence in upcoming offshore wind markets and marks the entry into the Baltic Sea.

By combining RelyOn's extensive knowledge in safety training and state-of-the-art learning technology with GoRopes' local market insights and technical capabilities, the partnership aims to provide Polish businesses and professionals with unrivalled safety training solutions and empower them to operate safely in high-risk environments.

"We are thrilled to establish our presence in Poland and partner with GoRopes, a well-reputed company that has proven themselves by building up an impressive track record over a short period of time since the inception in 2019" said Mr. Lars Brenne, Managing Director at RelyOn Nutec – Central Europe. "We look forward to bringing our cutting-edge safety training and competence solutions to the Polish market, further reinforcing our commitment to the energy transition and the growth of the renewable energy workforce"

Over the coming months the training center in Gdansk is expected to expand its offering to cover courses such as GWO Basic Technical Training, Lift User training and electrical courses according to the EN50110 standard. All supported by RelyOn's innovative adaptive learning platform.

"We look forward to working together with the industry leader and take the next steps in growing our training portfolio as part of the RelyOn Nutec group. Seeing the industry growing in the Gdansk (Trójmiasto) region every day, we believe this is the perfect time to take the next step" said Mr. Mateusz Archacki, co-founder of GoRopes.

RelyOn's significant presence around the North Sea including a total of 13 training centers in the United Kingdom, Norway, Denmark, the Netherlands, Germany, and Belgium, has laid a strong foundation for now starting its expansion into the Baltic Sea with the first training center in Poland. The acquisition of GoRopes exemplifies RelyOn Nutec's unwavering commitment to cultivating safer work environments for the renewable energy industry and following the global supply chain to upcoming offshore wind market.

## **About RelyOn Nutec**
