51 (22%)

Up from DKKm 23 (14%)

Free cash flow (DKKm)

18

Up from DKKm 8

Letter from the CEO

Performance has surpassed pre-COVID levels with LTM revenue of DKKm 837 and EBITDA of DKKm 166. Therefore, the full-year EBITDA outlook has been upgraded to DKKm 175-180 compared to DKKm 108 last year and DKKm 146 in 2019.

High energy prices and fast activity recovery across the oil and gas supply chain coupled with strong political commitment to fast track the energy transition form a solid foundation for our services in the years to come.

As a global leader in safety and skills training for high-risk industries, we are driving a fast-speed transformation and are applying our vast digital services to support the energy transition. We are the leading provider of safety and skills training to the wind industry, and we are eager to broaden our reach and scope. In September, we expanded into High-Voltage (HV) electrical training and consultancy by acquiring an interest in Thomson Bridge (TB). TB is Australia's leading provider of electrical skills and safety training for the electricity supply industries. Their services will be rolled out in our footprint where the demand is growing rapidly because of the electrification of the societies.

In Q3, we cemented our position in the wind training space and acquired Complete Training Solutions (CTS). CTS is on of the UK's leading renewable training provider based on the west coast and has a strong local client base. With CTS, we have a complete renewables offering to our customers in the UK renewables energy market.

We continue our digitalisation efforts and growth where the rollout of our Business Portal application is a key growth driver. We have onboarded more than 700 customers (100 in Q1 and 500 in Q2) across the world. We continuously release new functionalities on the application to cater for the customer needs and demands. The application is well received by our customers and the opportunity to select digital learning will boost our digital revenue.

We have a few centre openings in the foreseeable future; and most recently our new facility in Tampico, Mexico, opened to serve the growing energy markets.

Financial review

0.3

Revenue increased by DKKm 73 (46%) to DKKm 232. The revenue growth was especially driven by the Americas and Asia.

Revenue from renewables increased by 21% and reached DKKm 17, continuing at last year's growth rates.

Combined digital and blended revenue grew by more than 50% to DKKm 30 compared to DKKm 19 in Q3 2021.

EBITDA ended at DKKm 51, an increase of DKKm 28 or 122% compared to Q3 2021. The EBITDA margin amounted to 22% compared to 14% in the same period last year.

The result for Q3 2022 improved by DKKm 24 to DKKm 4.

9M:

Revenue represented DKKm 658 compared to DKKm 478 in the same period last year, an increase of 38%.

EBITDA amounted to DKKm 142; an improvement of DKKm 58 or 69% compared to the first nine months of 2021. The EBITDA margin was 22%; an improvement of 4pp compared to the same period last year.

EBIT reached DKKm 64, compared to DKKm 17 last year.

Free cash flow was DKKm 37 compared to DKKm 41 in the same period last year. The decline is driven by increased cash tied up in working capital following the activity uplift.

NIBD was DKKm 801 compared to DKKm 779 at the end of Q2 2022. Excluding convertible shareholder loan the NIBD was DKKm 743 at the end of September 2022.

In Q4, shareholders issued a convertible loan of DKKm 40 to finance the acquisitions of Thomson Bridge and CTS.

Outlook

Based on first nine months' performance and a healthy outlook across sectors, we have upgraded the full-year guidance to revenue between DKKm 860 DKKm 880 and EBITDA between DKKm 175 and DKKm 180

DKKm	2021 Realised	2022 Outlook (March '22)	2022 Outlook (May '22)	2022 Outlook (August '22)	2022 Current Outlook (November '22)

NOTE 1 – ACCOUNTING POLICIES

The interim consolidated financial statements for the three months ended 30 September 2022 have been prepared in accordance with International Financial Reporting Standards as adopted by the EU and further requirements in the Danish Financial Statements Act.

The interim consolidated financial statements do not include all the information and disclosures required in the annual financial statements and should be read in conjunction with the Group's annual consolidated financial statements for the year ended 31 December 2021.

The accounting policies, judgements and estimates are consistent with those applied in the consolidated financial statements for 2021.

The latest amendments to the International Financial Reporting Standards (IFRS) effective as of 1 January 2022 as adopted by the European Union are implemented.

None of the amendments implemented have had any material impact on the financial statement, nor are they expected to have so in the foreseeable future.

The interim report is presented in Danish kroner (DKK) rounded to the nearest million.

A number of reclassifications and adjustments have been made in the comparative figures. The result for the period and equity have not been impacted.

New accounting regulations

The IASB has issued a number of new standards and amendments not yet in effect or endorsed by the EU and therefore not relevant for the preparation of the Q3 2022 interim consolidated financial statements.

None of the new standards issued are expected to have any significant impact on the consolidated financial statements when implemented.

NOTE 2 - CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

In the preparation of the consolidated financial statements according to IFRS, Management is required to make certain estimates. Many financial statement items cannot be reliably measured but must be based on estimations as the value of assets and liabilities often depends on future events that are somewhat uncertain.

The judgements, estimates and assumptions made are based on historical experience and other factors that Management considers to be reliable, but which by their very nature are associated with uncertainty and unpredictability. These assumptions may prove incomplete or incorrect, and unexpected events or circumstances may arise. The most critical judgements, estimates and assumptions for the individual items are described below.

Accounting estimates:

- Deferred tax assets
- Goodwill and brands
- Business combinations
- Provisions

Management judgements:

- Special items
- Leases

Please refer to note 1.2 in the financial statements for 2021 for further information on critical accounting estimates and judgements.

NOTE 5 - MEASUREMENT AND FAIR VALUE HIERARCHY

Financial instruments measured at fair value are shown in accordance with the following accounting hierarchy:

- Level 1: Observable market prices of identical instruments.
- Level 2: Valuation models primarily based on observable prices or trading prices of comparable instruments.
- Level 3: Valuation models primarily based on non-observable prices.

DKKm	Carrying amount	Fair value Level 1	Fair value Level 2	Fair value Level 3
As of 30 September 2022				
Fair value:				
Contingent consideration, non-controlling interest	13	-	-	13

Net interest-bearing debt	801	731	723
Net interest-bearing debt excl. convertible shareholder loan	743	697	688

NOTE 7 - EVENTS AFTER THE BALANCE SHEET DATE

As outlined in the management review, we acquired an interest in Thomson Bridge and CTS on 27th October 2022 with an option to buy further shares at a later stage.

Both acquisitions are considered a business combination in accordance with IFRS 3, Business Combinations. Due to the timing of the transaction, the initial accounting for the business combination is incomplete at the time of issuing the interim report for Q3 2022.

No other events materially affecting the assessment of the interim report have occurred after the balance sheet that not already have been included and adequately disclosed in this interim report.

Statement by the Board of Directors and Executive Management

The Board of Directors and the Executive Management have today reviewed and approved the interim report for the period 1 January to 30 September 2022 of BidCo RelyOn Nutec A/S.

The interim consolidated financial statements of BidCo RelyOn Nutec A/S have been prepared in accordance with IAS 34 Interim Financial Reporting as adopted by the EU and additional Danish disclosure requirements for interim financial reporting for listed companies.

The interim consolidated financial statements have not been subject to audit or review by the company's independent auditors.

We consider the accounting policies applied to be appropriate and the accounting estimates and judgements made to be adequate. Furthermore, we find the overall presentation of the interim report to present a true and fair view.

Besides what has been disclosed in the interim

report, no other significant changes in the Group's risks and uncertainties have occurred relative to what was disclosed in the consolidated Annual Report for 2021.

In our opinion, the interim consolidated financial statements give a true and fair view of BidCo RelyOn Nutec A/S' consolidated assets, equity and liabilities and the financial position at 30 September 2022 as well as the result of BidCo RelyOn Nutec A/S' consolidated activities and cash flows for the

period 1 January to 30 September 2022.

Furthermore, in our opinion the Management Review gives a fair representation of the Group's activities and financial position as well as a description of the material risks and uncertainties that the Group is facing.

Forward-looking statements

This interim report contains forward-looking statements, including statements regarding the Group's future operating profit, financial position, cash flows, strategy as well as plans for the future. Forward-looking statements include, without limitation, any statement that may predict, indicate or imply future results, performance or achievements, and may contain the words "believes", "expects", "estimates", "projects", "plans", "anticipates", "continues" and "intends" or any variations of such words or other words with similar meaning. The statements are based on Management's reasonable expectations and forecasts at the time of disclosure of the interim report. Any such statements are subject to risks and uncertainties, and a number of different factors many of which are beyond BidCo RelyOn Nutec A/S' control can mean that the actual development and actual result will differ significantly from the expectations contained in the interim report. Without being exhaustive, such factors include general economics and commercial factors, including market and competitive matters, supplier issues and financial issues. Accordingly, forward-looking statements should not be relied on as a prediction of actual results.
